

Antigo Oats

Proven Performance | Premium Grain | Reliable Forage

Antigo oats are **field-proven, high-yielding, and early-maturing**, making them a top choice for growers seeking **quality, reliability, and profit**. Ideal for **feed, silage, or milling**, Antigo delivers **strong performance and consistent results** season after season.

Key Benefits

- **High Test Weight & Grain Quality** – Premium feed and milling potential
- **Early Maturity & Adaptable** – Thrives in northern climates
- **Strong Standability** – Medium height, moderate lodging
- **Disease Resistance** – Moderate crown rust resistance
- **Versatile Uses** – Feed, forage, silage, or cover cropping
- **Proven Field Performance** – Multi-location trials confirm stable yields
- **Quick Delivery** – Seed ready when you need it

Agronomic Overview

<i>Trait</i>	<i>Antigo</i>
Maturity	Early (1 day later than <i>Badger</i> , 2 days earlier than <i>Esker</i>)
Plant Height	Medium (~35–38 in)
Lodging	Moderate
Disease Resistance	Crown rust: Moderate
Test Weight	40–42 lb/bu
Dehulling Efficiency	>96%
Certification	Wisconsin Certified Seed

Field Trial Performance

Wisconsin Trials (2014–2017)

- Yield: **106 bu/acre avg** across multiple locations
- Test Weight: **40–42 lb/bu**, consistently high
- Reliable stands and performance across soil types

Midwest Trials

- Meets/exceeds food-grade test weight standards
- Strong grain quality ensures premium pricing
- Early maturity supports tight harvest windows

Ideal Uses

- Feed Grain Production
- Silage & Forage Programs
- Cover Crop / Soil Health Rotations
- Dual-Purpose Grazing + Grain

Supplies are limited. Please call to reserve your seed orders. Immediate delivery is available.
